REPUBLICAN CONGRESSIONAL DISTRICT CONVENTION.
FIRST DISTRICT.
A Republican Convention of the First Congressional District of the State of Wisconsin, composed of the counties of Kenosha, Racine, Waukesha, Walworth, and Rock, is hereby called to meet at the village of Elkhorn, in the county of Walworth, on Tuesday, the 13th day of August, 1878, at 10 o'clock noon of that day, to nominate a candidate for Congress, for the District for the next ensuing two years. Each Senate and Assembly District will be entitled to two delegates in the Convention.
Dated July 16th, 1878.

JOHN R. BENNETT,
A. D. THOMAS,
ELIHU ENOS,
T. G. FISH,
W. E. REED,
Committee.

FREE TRADE AND GOOD TIMES.

The new National party which professes to believe in a greenback circulation only, charges hard times to a contraction of the currency. Every man of intelligence in the Greenback party knows that the statement that the panic was caused by contraction, and that times continue hard on account of contraction, is utterly false, because we have now more greenbacks and legal tender notes in circulation, to say nothing of millions of gold and silver, than we had in 1868 and 1869 when business in the United States had reached the highest degree of prosperity. The Democratic press teach that business depression was caused by a protective tariff which creates monopolies, damages trade, ruins commerce, renders agriculture unprofitable, and finally reduces wages and throws the workman out of employment. The history of this country proves that the nation was richer, business was better, and trade more profitable, under a protective tariff than under the free-trade periods. Free trade is handsome in theory, but in practice it will get the upper hand of any nation which adopts it.

In running a government the question, How shall we raise a revenue? is an important one. Direct taxes are not popular with the great mass of people, and therefore we must do one of two things—impose a tax upon our own industry, or upon the goods which are manufactured, or material raised, abroad, and sent to this country. To pay a tax upon our own products would be impracticable and at the same time, burdensome. To levy it upon goods manufactured in foreign countries and shipped here for sale, is to make the foreign producer pay a good share of the revenue, while at the same time it protects and stimulates our home industries. In this way the government receives about 135 millions of dollars annually, two-thirds of which is taken from the foreign producer, and only one-third is ultimately paid by the consumer here. Suppose Congress should abolish the tariff, and admit goods and material from abroad free of duty, how would that effect the times? The Government would lose a large revenue, from customs, and would be compelled to draw directly from the pockets of the people, or otherwise the public treasury would be bankrupt. But this would not be the worst result growing out of absolute free trade. The products of the half-paid labor of Europe would flood our markets; the wages of those engaged in manufacturing would be largely reduced; and thousands of those engaged in producing would become idle consumers. These would be the inevitable consequences of abolishing the tariff. England has tried free trade to her heart's content, and that the nation might regain prosperity, and her working classes better their condition, her leading public men are advocating protection.

The demands of the South have even turned the stomach of the Cincinnati Enquirer—a paper which made as strong an effort to elect Tilden as any paper in the country. It now has the courage to say this: "The Southern Democrats do not want their Northern brethren to think they have a claim on them never to be satisfied. They want it understood a diabolical war to take place, or there will be kicking clear out of the traces. A Southern railroad to the Pacific is demanded, and the banks of the muddy Mississippi must be walled in with Parian marble. The Southern man of 1850 and 1860 begins to assert himself."

The West is now engaged in harvesting. Grain has ripened rapidly in consequence of the recent hot weather, which imposes upon the farmers an unusual amount of work. This necessitates an extra amount of help. The wages offered are good, better than they were before the war, and yet harvest hands are scarce in many parts of the country. The multitude of "laborers seeking employment" can not be had even though good pay is offered. If Sam Carty and "Brick" Pomeroy can induce their tramps to work instead of stealing and begging, the harvest would go on more rapidly, and the country would be better off.

It would occur to an ordinary observer of politics, that in North Carolina there at least ought to be one Republican left, either white or colored, good enough for an office-holder, but the President seems to think otherwise. The State wanted a Special Agent of the Treasury, and according to his Southern policy, Confederate General Harry Heth was appointed. Touching this appointment, the Cleveland Herald remarks: "If Heth puts half the energy into the work of catching whisky-thieves that he used to devote to fighting the Union armies, the revenue will be thoroughly collected in North Carolina."

The question as to what caused the recent hot weather has been solved by Professor Langley, of Pittsburgh. Something has "knocked the spots" off the sun's face, which is at present free from spots "almost beyond past remembrance." He says

next year the spots will begin to appear, and cooler weather will follow. Prof. Herschel's theory conflicts with that of Prof. Langley's, the former maintaining that the more spots there were on the sun's face, the hotter would be the weather. Edison will find in this question a fertile field for investigation.

Speaker Randall has been attempting to make political capital out of the speeches he made recently. Here is a sentiment he got off for the fourth of July: "When the iron will of stern necessity darkens every household in the land, extravagance on the part of the people's servants is an unpardonable crime." Did Randall so soon forget that the House over which he presided increased the appropriation over 28 millions of dollars, besides disturbing the business interests of the country by going into an extravagant and one-sided investigation?

THE JAMESVILLE GAZETTE.

next year the spots will begin to appear, and cooler weather will follow. Prof. Herschel's theory conflicts with that of Prof. Langley's, the former maintaining that the more spots there were on the sun's face, the hotter would be the weather. Edison will find in this question a fertile field for investigation.

Speaker Randall has been attempting to make political capital out of the speeches he made recently. Here is a sentiment he got off for the fourth of July: "When the iron will of stern necessity darkens every household in the land, extravagance on the part of the people's servants is an unpardonable crime." Did Randall so soon forget that the House over which he presided increased the appropriation over 28 millions of dollars, besides disturbing the business interests of the country by going into an extravagant and one-sided investigation?

The "alleged" steam wagon, as the Milwaukee Sentinel put it, arrived in Janesville this forenoon from Fort Atkinson. There was a rush to see the \$10,000 appropriation, but all persons of a practical turn of mind were disappointed in the machine. It is simply a self-propelling engine with a wagon hitched on behind. There is not, we venture to assert, a farmer in Rock county, who will declare that the "alleged" steam wagon can be put to a practical use on a farm. The man who gets the \$10,000 will doubtless get the best end of the bargain.

From 1868 to 1876 the expenditures of the Government were reduced \$78,104,131, which made an annual Republican reduction of \$9,138,016. The expenditures for 1876 were reduced nearly 15 million dollars below the previous year; and the taxes reduced by the Republicans from 1868 to 1875 amounted to 250 million dollars; but the Democratic Congress of 1878, increased the appropriations \$28,752,265. This is a Democratic "triumph of retrenchment!"

In Augusta, Maine, a few days ago, the Greenbackers met to form a Club. There were a dozen at the meeting, ten of whom were Democrats, and two were Republicans. The Democrats thought they made a sharp political movement when they elected one Republican President and the other Secretary, to create the impression that the Greenback movement drew heavily from the Republicans.

The New York Graphic has boiled down the correspondence between John Sherman and Clarkson N. Potter, and here is the long and the short of the whole matter: To the Hon. Clarkson N. Potter: If you please, I would like to introduce some testimony for the defense of John Sherman.

To the Hon. John Sherman: Such an outrage cannot be permitted. In this trial no testimony will be allowed except for the prosecution. Not if I know myself. C. N. POTTER.

Potter should go South and look after his Sub-Committee. Stenger, the chairman of the Sub, now in New Orleans, has agreed to issue subpoenas for any or all of the ninety-three witnesses, whom Secretary Sherman wanted to place upon the stand to prove that there were unblushing murders and gross frauds in East Feliciana, in 1876.

The total number of deaths in St. Louis caused by heat, from July 8th to July 19th both inclusive, is 184. The greatest number on any one day was 38 deaths, these occurring on Sunday, the 14th. The thermometer stood 102 in the shade both in St. Louis and Janesville on that day.

From a private letter this morning we learn that Racine county strongly favors Mr. Williams' renomination for Congress, in which Mr. Baker heartily concurs. This is a handsome thing on the part of Racine, and is highly appreciated by Mr. Williams' friends in Rock county.

A Sentinel reporter attempted to interview Gabe Bouck at Oshkosh last week, but he said it was too hot to talk about Congressional matters. Gabe will find it hotter next fall than he does now. The very thoughts of the campaign make him "transpire" profusely.

was full of tenderness and without any of the business preoccupation it sometimes had. "John," he said, when I had discovered him, "won't you come and sleep with me tonight?" His voice was frank, as if he had been my brother instead of my father. That night I went to his bed, and in the morning very early he awakened me, and, taking my hands in his palms, all four hands extended, he said, and told me to repeat the Lord's Prayer. Seventy-five years have since passed over my head, and I have forgotten many things, but not that tender expression when he stood looking at me in the door, nor the prayer we made together the morning before the duel.

THE NEWS.
A Six Hundred Thousand Dollar Defalcation in Boston.
Congressman Hunton and Columbus Alexander Furnish Some Spicy Personals.

The Damage to the Crops in Wisconsin, Minnesota and Iowa.
Meeting of the Wisconsin Academy of Science, Art and Letters.
An Old Settler of Annapoe, Wisconsin, Burned to Death.

THE LATEST.

A Six Hundred Thousand Dollar Defalcation in Boston.
BOSTON, July 22.—The announcement this afternoon of the resignation of John G. Tappan as Treasurer of the Boston Building Company, a position he had held since the organization of that corporation, thirty years ago, and the statement that he had used the credit of the company in the interest of private speculation, was a surprise in financial circles, where Tappan was regarded as a man of most exemplary character and unimpeachable integrity. The corporation had a paid up capital of \$500,000, and its reputation, under Tappan's management, had become such that its paper was readily discounted, and even sought as among the safest of investments. Its capital stock was 5,000 shares of \$100 each, and early in the year it sold for \$175 per share, while the last auction sale was \$125 per share. Upon the resignation of Tappan, E. S. Converse, Treasurer of the Boston Rubber Shoe Company, was chosen as his successor, and found affairs in such a condition that he called a meeting of the stockholders and creditors to-day, at which it was stated that Tappan had issued notes to the amount of \$600,000, and is also held for \$25,000 on outside indebtedness as Treasurer, the proceeds of which have not been received by the company.

THEIR CARDS.

Congressman Hunton and Columbus Alexander Fighting with Their Pens.
WASHINGTON, July 22.—Mr. Columbus Alexander went to Alexandria to-day to have published in the Alexandria Gazette of this evening his card in reply to the last card of Eppa Hunton, in which the latter calls the former a liar, coward, etc., for not leaving the district to give the Virginia Congressman personal satisfaction. Eppa Hunton was not in Alexandria to-day, but was basily engaged at Warrenton in the effort to secure the Loudoun County (his home) delegation's vote in the Congressional convention. Mr. Alexander's card recites the history of the controversy, as has been published. In answer to Eppa Hunton's last card, in which Alexander is branded as a liar and coward, Mr. Alexander says: "Who is a malicious liar, a vulgar black-guard, and an irresponsible coward is not necessary for me to say. So much about that personal difficulty between General Hunton and myself. But politically I can not let him go. He is the friend of the various District rings, has always voted for them and against the honest people of this District. He has only recently not only voted for but engineered through one of the worst and most cruel measures against the poor ring-impooverished people of this District, which, if carried out, will bring under the hammer many of the homesteads of our citizens for the benefit of the moneyed interests. He has in fact been rewarded with the most extensive ring patronage, and for that and other similar reasons we ask our Virginia neighbors and kinsmen to keep him at home. Our proof for these assertions is the Congressional Record and other sources, the support he gets from the ring papers and his own silence. Though I have made these charges against him in my second letter, in conclusion, I assure my friends that I have never been known to be wanted and not found except on that memorable night when the safe burglar, in the company of that select ring party, called at my house. That I did not respond to the call is due to a kind Providence that kept me and my family fast asleep. Most respectfully, COLUMBUS ALEXANDER.

Washington, July 22, 1878.

THE DAMAGE.
To the Growing Crops in the State of Wisconsin, Minnesota and Iowa.
MILWAUKEE, Wis., July 23.—From a summary of over 200 reports received by E. P. Boem, & Co., commission merchants of this city, from points in Wisconsin, Iowa and Minnesota in the past three days, the damage to the growing crop of wheat by the late storms and excessive heat averages 17 per cent in Wisconsin, 27 per cent in Iowa, and 27 per cent in Minnesota.

WISCONSIN SCIENCE.
Meeting of the Academy of Science, Art, and Letters at Milwaukee.
MILWAUKEE, July 22.—The Wisconsin Academy of Science, Art, and Letters will convene here to-morrow evening and remain in session three days. The address of welcome will be made by General Hobart, President of the Common Council.

and the response by Dr. Hay, of Racine. During the session papers will be read by Professor Elmendorf, of Racine College; the Hon. W. O. Allen, J. G. Meachem, of Racine; F. S. Perkins of Burlington; A. L. Chapin, President of Beloit College; Ella A. Giles, Madison; the Rev. H. M. Simmons, of Kenosha; J. N. Dehart, for the Hospital for the Insane at Mendota, and the Rev. C. Cayron, Lombard, Illinois. The local members will treat the delegates to a banquet Wednesday evening, and to a carriage drive Thursday afternoon.

BURNED.
John Gettinger Burned in His House at Annapoe.
ANNAPOE, Wis., July 22.—A house six miles from here burned last night, and it was supposed the owner, John Gettinger, was burned in it. After searching for some time among the ruins, the body was found burned to a crisp. The deceased was one of the oldest settlers in this part of the country. He has a son living in Chicago.

HARVESTERS
Wanted to Help Gather the Crops of Columbia County.
COLUMBUS, July 22.—Notwithstanding the great storms of late there is still a fair crop in this county, and help is very scarce. Farmers are everywhere in search of men to assist in getting up their crops, which are just beginning to ripen. Barley is nearly all cut now. Localities having surplus help can send me of this way.

Lawyers in San Francisco.
San Francisco Call.

The heaviest legal incomes in the city vary from \$50,000 to \$60,000 per annum. On the contrary there are plenty of lawyers struggling to practice who do not average \$30 per month the year round. Some of our leading attorneys require a cash of \$1,000 before having anything to do with a case. Important cases in criminal cases range from \$250 to \$2,500, and instances are common where much larger sums have been paid. In 1874 William H. Patterson and the late John H. Felton received \$40,000 for defeating the Local Option law before the Supreme Court. They only worked on the case about two weeks, and worked in very leisurely style at that. The money was placed on deposit beforehand, and when a favorable decision was announced, all they had to do was to go to the bank and get it. Each of them received \$20,000, equal to about \$300 an hour, or \$5 a minute, that he was actually copied with the case. The emotions of a man who realizes that an ordinary professional services can be made so valuable as to net him a small fortune in a couple of weeks must be peculiar, indeed. In the celebrated slip case, Mr. Felton's fees amounted to \$250,000. On another occasion he received \$30,000 for his services in a Spanish land-grant contest, and on still another occasion he was paid \$10,000 on condition that he would not appear as attorney in a certain pending case. In 1870 S. W. Sanderson resigned the high position of Chief Justice of the Supreme Court of California in order to become Attorney of the Central Pacific Railroad Company. The inducement offered was in proportion to the sacrifice, and consisted of a permanent salary of \$1,000 per month, which was subsequently increased to \$2,000 per month. Some wealthy commercial firms find it to their interest to employ attorneys on regular salaries that range from a few hundred dollars per annum up into the thousands. These attorneys see to the proper drawing up of all papers of consequence, and are consulted on all occasions of doubt or importance. Nearly all the banks and corporations have their salaried attorneys. Campbell, Fox & Campbell are said to receive a large salary from the Spring Valley Water Company. Rumor has it that Bergin & McAllister receive \$1,000 per month from the Bank of Nevada; that S. M. Wilson receives a salary of \$3,000 per annum from the Bank of California; that Solomon Heydenfeldt (formerly of the Supreme Court) receives \$1,000 per month for guarding the mining interests of Flood & O'Brien, while also receiving a salary in each case for officiating as President of a number of mining companies; that H. J. Lloyd is attorney for millionaires Baldwin, and gets high pay, it is said. S. M. Wilson is supposed to be in receipt of the largest income of any member of the Bar. J. P. Hoge, in the course of his career, has frequently come in contact with \$10,000 fees.

Surest Tranquilizer of the Nerves.
The surest tranquilizer of the nerves is a medicine which remedies their super-sensitiveness by invigorating them. Over-tension of the nerves always weakens them. What they need, then, is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquillity of the nerves by endowing them with the vigor requisite to bear, without being jarred or disturbed, the various impressions produced through the media of sight, hearing and reflection. Nay, it does more than this—it enables them to sustain a degree of tension from mental application which they would be totally unable to endure without its assistance. Such at least is the irrefragable conclusion to be drawn from the testimony of business and professional men, literateurs, clergy, men, and others who have tested the fortifying and reparative influence of this celebrated tonic and nerve.

 Thursdays and Saturdays at..... 2:00 p.m.

POST-OFFICE HOURS.

Daily from 8:00 a.m. to 5:00 p.m. On Sundays
 from 12:00 to 1:00 p.m. Money Order and Regis-
 tered Letter Department open from 8:30 a.m. to
 12:00 p.m. and from 1:00 to 5:00 p.m. except during
 the distribution of the mails. Stamps, stamped
 envelopes, postal cards and Wrappers for sale at
 East front window from 8 a.m. to 5 p.m. Orders
 for stamped envelopes with return card printed
 thereon, should be left at the Money Order De-
 partment.

On Saturday night only, a through pouch

from Chicago is received on the Fond du Lac train;
 and on Monday morning only, a through pouch
 is made up and forwarded to Chicago on the 7
 o'clock train.

By routing this table carefully, the public can

post themselves thoroughly upon the arrival and
 departure of all the mails, and thus avoid
 inconvenience to themselves.

H. A. PARKER, CHIEF CLERK.

NOTES FROM THE EAST.

OAK BRUFFS, MARTHA'S VINEYARD, July 18th, 1878.

Since my arrival in Boston I have seen
 so many things novel and interesting that
 I have been on the go nearly every day.

The man that comes here on business el-
 bows his way through the jostling crowd,
 attends to his interests and hurriedly de-
 parts, and knows little of real life in this
 great city.

Her banks and her great com-
 mercial houses, the rattling of heavy carts
 and her crowded thoroughfares are a true
 index of her business life. But in search-
 ing for the cause of all this commercial
 activity we must look down into the social
 and moral life upon which all true great-
 ness depends.

Boston is a wealthy city, and she has obtained her wealth through
 the legitimate channels of trade rather than
 through gambling in stocks and rich
 mines. Nearly every department of in-
 dustry known to our country is represented
 here. There appears to be something for
 every man, woman and child to do, and
 there is less of poverty, destitution and
 pauperism than in any city I have ever
 seen. Her sanitary regulations are excel-
 lent. Her health officers are watchful and
 vigilant, and Boston is to-day the cleanest
 and best kept city of America; and if her
 municipal government is not absolutely perfect
 in these days of perfection, it is yet a sys-
 tem of excellence compared with the aver-
 age city of our country. Boston has
 wealth, genius, refinement and learning,
 and if she is full of whims, fads and social
 inventions she also has sound doctrines,
 good morals, and polite manners, and her
 churches, her schools, free libraries, art
 galleries and reading rooms, her streets and
 public parks, are but the evidence of social
 culture.

I came down to this place a few days

ago, and regret that I feel compelled to
 leave it so soon. It is the cottage city of
 America and is unique in everything. It
 is situated on the northeast coast of the
 island looking out on the Atlantic. Its
 streets run to all points of the compass,
 and forming every curve known to Eu-
 clid, they are smooth and elegant, being
 paved throughout with granite. There are
 over 1,000 cottages, presenting endless
 styles of architecture. They are light,
 airy and homelike, painted in every shade
 of light colors, from pure white to dark
 drab, and present an air of neatness and
 comfort rarely seen in seaside life. Some
 of them are quite elaborate and expensive.
 With but few exceptions they are occu-
 pied by the owners, and we find nearly
 every State of the Union represented here
 in this Cottage City. During the months
 of July and August there is said to be a
 population here of 15,000, and the remain-
 der of the year not more than from two to
 three hundred, who are principally "keep-
 ers of the city."

Besides these cottages there are four large

hotels and several of smaller dimensions,
 to accommodate transient visitors. The
 beach has usually but little surf, and is not
 as desirable as the one I have seen, but
 the sea air is very good.

This morning I went over to Nantucket.

It is out in the Atlantic 30 miles east of
 this place, and has become quite a favorite
 resort in hot weather. The air is cooler
 and more refreshing than mainland coasts.
 Nantucket was formerly largely engaged
 in whale fishery. I am informed that at
 one time 200 vessels belonging to this place
 were engaged in the business, and now not
 a single one. The town looks deserted and
 dead. In 1890 there was a population here
 of 6,000, and in 1875, less than 3,000. The
 island is 15 miles long, with an average
 width of 5 miles, and at the narrowest
 of above the sea level. There are very
 few trees upon it, and it has rather a dreary
 and barren look. There are few public
 houses with fair accommodations. This

island was discovered by Goswold in 1602,
 and has some interesting historic monu-
 ments connected with it, which I have not
 space to relate. The heated way that has
 been rolling over the northwest, rendering
 the first half of this month so uncom-
 fortable, appears to have reached us here,
 as the weather has been unusually hot for
 the last week, and quite oppressive on
 land, when we have a west wind.

WE SHALL

ON

THE GAZETTE.

TUESDAY, JULY 23, 1878.

CITY AND COUNTY.

BRIEFLETS.

—Generals draws well.
—The thermometer is getting over its sunstroke.
—About time for some of those promised boat races, and trotting mania.
—Mr. and Mrs. Fred H. Fellows left today for a month's trip through the East.
—The veterans will again meet, this week, to further their proposed organization.
—We are in receipt of several copies of the Newcastle Chronicle sent by Dr. Horne, who is now across the briny.
—The Sheriff of Green county was yesterday afternoon in the city hunting up more witnesses in the Olin's murder case.
—Mayor Norcross and Hon. John Winslow are in Beloit attending to a law suit in which Mr. Norcross acts as referee.

—Mr. George B. Tallman, editor of the Delavan Republican, was in the city yesterday and made a pleasant call at the Gazette office.

—Justices Balch and Wickham were among the excursionists to-day, and in consequence their scales hung idly waiting their return.

—Croft & Sherer carry off the palm for selling more tickets to the Temple of Honor excursion than any other agency, having disposed of about 40.

—Mrs. Mack has already commenced grumbling at the accommodations furnished at the Hotel de Colley. She thinks her room should be larger and more airy.

—This evening there will be a joyous gathering at the residence of Mr. and Mrs. C. G. Titcomb whose daughter Lulu will thus celebrate her eleventh birthday.

—Mr. J. C. Metcalf again favors the Gazette with an interesting letter from the East. It is to be found elsewhere in this paper and will amply repay a perusal.

—Father Munich received word from Milwaukee to-day that Archbishop Hennrich's health is daily improving, and he will doubtless recover wholly from his late sunstroke.

—Mr. Fred W. Holden, desires through the Gazette to thank his friends for their many kindly sympathetic words and acts, called forth by the sickness and death of his mother.

—The Bower City Band will not camp at Geneva Lake, this week, as expected, and will not probably take their summer vacation before the middle of next month, and perhaps not then.

—The many friends of Charley Potter, the accommodating agent of the Northwestern railroad, will regret to learn that he is confined to his bed by nervous prostration. His speedy recovery is hoped for.

—Mr. H. Williams is stopping at the Myers House, introducing Dr. Warren's Yerbera Bitters. He is giving away samples, in order to introduce this blood purifier, and will after this introducing it, appoint agents.

—John Nicholson, an employee in the lamp factory complains that he was assaulted by three fellows last night about 12 o'clock, while walking along River street. The assault did not result in any very serious injuries.

—Fully 400 went to Geneva Lake to-day and yet the streets did not look deserted. Janesville is not the kind of a place to stop business for the sake of an excursion however good, and the usual activity was shown in trade.

—Chop down the thistles. The Aldermen have been clearing them out of the streets, but there is still a heavy crop growing upon various unoccupied pieces of property. The owners of such lots should do themselves and the city suitable service by clearing them out.

—A party of five tramps badly under the influence of corn juice were strolling around in the First Ward this forenoon. One was so drunk that he could not get away and was run in; but the other four took to the woods on learning that the officers were after them.

—Mr. and Mrs. J. C. Purdy, of Cleveland, are in this city the guests of Mr. and Mrs. Wm. B. Smith. Mrs. Purdy is a sister of Mrs. Smith, and a cousin of Mrs. John J. Constock. Mrs. Smalley, another sister of Mrs. Smith's, has been in the city a few weeks, and Mr. Smalley is expected to visit here before long. Mr. Purdy was formerly a resident of Janesville, and four years ago went to Philadelphia as a representative of the New York Tribune, with which Mr. Smalley was at that time connected. Last fall Mr. Smalley and Mr. Purdy became connected with the Cleveland Herald, the former being its political editor.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 71 degrees above zero, and at 2 o'clock at 88 degrees above. Clear. One hour ago today at corresponding hours the thermometer stood at 65 and 88 degrees above.

The indications to-day are, for the upper lake region, clear weather, cold northerly, veering to warmer easterly winds, and stationary or lower pressure.

OFF FOR GENEVA.

The Temple of Honor excursion started off for Geneva Lake, this morning, in high glee. There were five coaches crowded with passengers, and a baggage car, also well filled. The Bower City Band accompanied the excursion, and enlivened the send-off at the depot by some stirring music. A large number gathered to see the excursionists start off, and a regular out-door social occurred which only came to a close when the bell tapped the signal for starting. With a happy crowd, a pleasant day, beautiful picnic grounds, and plenty to see, to hear, and to eat, there is no doubt but that the excursionists will have occasion to long remember the day as one of general joy and solid enjoyment. The Temple financially and socially has made a strike.

A BRAVE RESCUER.

There was a narrow escape from drowning yesterday afternoon. It seems that W. M. Carrier, who clerks in Fitch's

hat store, and Fred Pauly, went in swimming about a mile above Hume's bridge. As they were swimming across the river Carrier being ahead, heard Pauly cry and turning around saw him sinking. He hurried back to him, and Pauly clutched him, and for a moment it seemed that both must drown together. Carrier finally got hold of him so that he could strike for shore, but before reaching land became exhausted, and told Pauly to keep up to the surface while he rested for a minute on his back. Pauly sank immediately and Carrier quickly went down and brought him up, and by hard work got him to shore. Pauly was nearly gone when the two reached shore, but was soon revived and restored to accustomed vigor. The rescue was a brave one, and Carrier deserves great credit.

THE STEAMWAGONS.

One of Them Rolls Into this City.—The Only Other Contestant Seen to Follow.—Full Particulars of the Trial.

During the forenoon a large number of persons were eagerly "waiting for the wagon," and shortly after 11 o'clock, it turned into Milwaukee street and came West toward the Myer's house, a great ungainly, dust-begrimmed machine, puffing smoke and sparks. Hundreds rushed to see the steam wagon as it turned the corner of Main street and halted there while the attendants could get their dinner. It was visited during its stay by many sight-seers, none of whom however seemed to fall very deeply in love with it. The wagon was one built in Oshkosh by Schuman & Farrant, and was one of the five which entered for the contest. This contest is in accordance with a bill passed by the legislature offering \$10,000 for any steam wagon which could meet certain tests, among them being a trip of 200 miles, and that the running time on the road should not be less than five miles per hour. Three commissioners were appointed, Hon. J. M. Smith, of Green Bay, Hon. M. Marshall, of Adams county, and Hon. Q. C. Olin, of Oakland. One wagon was entered by Dr. Cosse, of Sun Prairie, but after getting it built, it was submitted by the owner to certain tests in Milwaukee and broke down, and did not put in an appearance at Green Bay, where the start was made July 15. Another wagon was entered from Fond du Lac, but it failed to put in an appearance for some unknown cause. A third wagon was entered by Mr. Baker, of Madison. Mr. Baker went to Green Bay, and instructed his men to ship on the wagon, but it failed to come for some reason also unknown. The fourth entry was a wagon from Green Bay, called Cole's wagon. It started and has been on the road most of the time, though delayed greatly by breakdowns. It is still rolling along though, and at 6:30 o'clock last evening was at Burnett. At 11 o'clock to-day it left Fort Atkinson. It is accompanied by Commissioners Smith and Marshall.

The wagon which reached here this morning, was one built in Oshkosh, and has succeeded in rolling along at quite a uniform rate of speed. It stopped at Oshkosh on the way from Green Bay here, and while there went out on the race track and made a mile in 4 minutes, 30 seconds, although it was geared for draft purposes and not for fast running. With the fast gear it is said to be much speedier than that. It has averaged on the road, while running, about seven miles an hour, and in some places has speeded along at fifteen miles an hour. The wagon left Fort Atkinson at 7:45 o'clock this morning and reached this city at 11:15, making the twenty-one miles in 3 hours 15 minutes, deducting a fifteen-minute stay in Milton. It came from Milton here in 59 minutes. It is said to go over steep grades with ease, but does not work as well in sand. In climbing one grade of about 200 feet to the mile, it drew two wagons carrying 63 persons, and it is claimed, it can draw twice as great a load as that, and with ease, besides its own weight, which is 6,500 pounds. Yesterday it did some plowing, driving two gang plows with ease, making furrows six inches deep and a foot wide. No more plows could be had there, and so the test had to be confined to two.

The wagon has already traveled 152 miles, and started this afternoon for Evansville, from whence it will go to Madison, where the journey will end.

The Green Bay wagon will not probably reach here before to-morrow, though possibly it may reach here this evening. It weighs about 8,000 pounds, and has thus far been behind all of the way from Green Bay.

The Commissioners are to end their tests by the 25th instant, ten days after the start, and are to make their decision as to the award of the prize money within ten days after that.

SPORTING NOTES.

At Boston yesterday the Bostonians defeated the Cincinnati's by 8 to 7.

Seventy-three horses have been entered for the Cleveland races which open to-day.

This afternoon in New York, Robert S. Russell, a diver, is attempting to walk 80 miles under water in five hours, on a wager of \$500.

The sailing regatta to-morrow and Thursday at Madison, promises to be a great success. A number will go from this city as spectators.

The Manchester defeated the Hornells yesterday by 11 to 4.

SAVE YOUR MONEY.

As will be seen by an advertisement published in another column, Messrs. J. and D. Creighton, have received at their Centennial store 15,000 yards of Hamburg edging and insertings, which they offer for sale at half price. They are also closing out their summer stock at extremely low prices. They propose to keep up their business in all lines, including their millinery department, and are always adding fresh stylish goods. Their enterprise, genial treatment of patrons, and their low prices are facts making them one of the most popular firms in the city, and their trade is constantly increasing. Give them a call and examine their goods and prices for yourself.

CITY; CHOW-CHOW.

The Tid-Bits of Business at the Aldermanic Gathering, Last Evening—Some [New] Items Picked up in the Council Chamber.

The regular semi-monthly meeting of the Common Council was held last evening at the City Hall, His Honor, Mayor Norcross, presiding, and all the Aldermen present, except Aldermen Hemming and McKinney.

The Journal of the last regular and special meetings was read, amended, and approved.

A few miscellaneous bills were read, and referred to the appropriate committees. A petition was presented from John Kelley, Foreman of Washington Engine Company No. 1, asking permission of the Council to use the meeting room in the west side engine house for a sleeping room. The petition was signed by all the members of the Company. The petition was received and placed on file.

Also a remonstrance from Rescue Hook and Ladder Company No. 1, stating the wish of the Company to continue the use of the meeting room as such, and stating that they had no desire for the proposed change. The remonstrance was placed on file.

Ald. Church from the Highway, Street and Bridge Committee, reported in favor of removing certain obstructions, and abating nuisances in the North end of Jackson street, Rockport addition.

Ald. Fitzgibbon stated that an alley in the fourth ward was obstructed in the same way, and it was the wish of certain residents of the fourth ward that this also be included, and the alley opened, and with this end in view, moved that the whole subject be referred back to the Committee for further investigation. Neither of the fourth ward Aldermen seemed to know anything about the alley, and the Aldermen from the fifth ward could not particularize, so the subject was dropped and the report of the Committee was adopted.

Ald. Lawrence, from the Finance Committee, reported in favor of allowing sundry bills, which were concurred in.

Ald. Church, from the Fire Committee, reported in favor of charging back to Engineer Dresser \$34.34, the amount overpaid him from December 18th to January 6th. The report was adopted.

Ald. Fitzgibbon offered a resolution requesting Dr. Mitchell to so alter the grade of the sidewalk in front of his block, as to correspond with the grade of the street. Referred to the Highway, Street and Bridge Committee, with power to act.

City Attorney McElroy, to whom had been referred a resolution amending the Journal of the old Council, reported that this Council had no right to so amend.

Ald. Lawrence, from the Finance Committee, reported back the bill of Edward Reger, \$132.00, for services in connection with the visit of the Water Works Committee to Iowa, etc., without recommendation. [It seems that Mr. Reger's bill calls for pay for the time spent in making the trip, the Aldermen claiming that the Committee were to donate their time, the city only to pay the necessary expenses of the trip.]

Ald. Fitzgibbon moved that the bill be allowed, payable from the general fund.

Ald. Davies moved that the bill be referred to a special committee to consult with Mr. Reger. Adopted, and Aldermen Vankirk, Joyce and McKinney were appointed as such committee.

The Finance Committee also reported back the bill of Ald. Davies, \$179.00, for expenses of the same Committee, without recommendation, and the bill was sent to the same special committee for further investigation.

The Council adjourned.

THE BAIL FIXED.

Application was made yesterday by Mrs. Mack to have the amount of bail fixed at some figure by the Circuit Court before which she is to be tried for the murder of her husband. The court finally fixed it at \$9,000, but it is not probable that she will be able to furnish bondsmen.

INVENTIONS.

The following list of patents were issued out of the United States Patent Office to the citizens of Wisconsin for the weeks ending May 14 and 21. Reported for the Gazette by S. A. Hudson, Attorney at Law and Solicitor of Patents, Lappin's Block.

Seeding machines—J. B. Barge and others, Appleton.

Wind engine—J. H. Palm, Lodi.

Reissued.

Nutmeg grater—C. H. Pierson and C. W. Ferguson, Janesville.

Axle adjuster—J. Porrier, Oconto.

Rattling boom—L. M. Pond, Eau Claire.

Wheel cultivator—Charles Sexton, Janesville.

Colter—C. Steller, Milwaukee.

Grinding mill—J. Mills, Milwaukee.

Rotary grinding machine, for the manufacture of paper pulp from wood—W. R. Patrick, Marinette.

Leaf turner—J. J. Vincent and J. B. McMillan, Poylapp.

AN OVER-FLOW MEETING.

One of the most successful musicales ever given in this city took place last evening in the parlors of Court street church, under the direction of Prof. C. G. Titcomb. The room was crowded to overflowing, and even the sidewalk around the door was alive with eager auditors, while many were obliged to turn away and go to their homes without any chance to see or to hear. The programme as already published in these columns was carried out, reflecting great credit on all who participated. All of the instrumental numbers were well rendered, especially Rossini's overture of "William Tell," by Prof. Blighoff and Titcomb, which called forth the heartiest of applause. Mrs. Smith sang in a manner exceeding even her usual efforts, and Mrs. Moseley seemed no less to catch the inspiration of the occasion, and did herself great credit. In fact the vocal numbers were of far more than ordinary merit. It is to be regretted that in these recitals, with which Janesville is so often favored, that a larger and more suitable instrument could not be secured. The piano used last

evening was sweet toned and very suitable for a parlor, but hardly such as would bring out to the best advantage the merit of the performers in such a room and with such an audience. All who participated, may, however, feel to congratulate themselves on the success of the entertainment, which was indeed of a high order.

Be Sure to Get the Genuine.

As there are Baking Powders sold in bulk for Dr. Price's Cream Baking Powder, which is not his, be sure to get the genuine, which is put up in cans, securely labeled, and made only by Steele & Price, all of whose preparations are uniform and reliable. Buy it only in cans.

LOCAL MATTERS.

Ladies and Gents will always find the nicest and cheapest Box and Staple Stationery in the city and Sutherland's Bookstore, No. 29 Main street.

Verba Bona.

Samples given away. The agents of the celebrated California Remedy, the Yerba Buena Bitters, are in the city, giving away samples of their valuable Remedy on the street every evening, that all may try and be convinced of its curative powers.

AWKARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, Bible House New York City.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning, will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, etc. Its sale now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cents. Three doses will relieve you.

decided wisdom

Beyond the Reach of Human Skill.

Is the power to restore the hair to bald heads when the bulbs at the roots are destroyed by age or disease; but there are doubtless many persons becoming bald, whose hair by careful attention might be restored to its original luxuriance and beauty. Parker's Hair Balsam is an elegant preparation, designed to meet the public want for a harmless hair dressing and restorative. It acts like magic, commencing at the very roots, removes dandruff and all humors from the scalp, and never fails to restore gray or faded hair to the original color, and the soft, rich and glossy appearance of youth. By its occasional use falling out of the hair is immediately checked, and a luxuriant and beautiful growth of young hair is induced. The exquisite perfume and the purity of its composition are highly appreciated, and as it is not a dye and does not stain the skin or clothing, it is a growing favorite of the toilet table everywhere. Buy a bottle from your druggist A. J. Roberts, Janesville, Wis., and test its merits.

"Dobbins' Electric Soap."

Having obtained the agency of this celebrated Soap for Janesville and vicinity, I append the opinion of some of our best people to its merits. I have washed with "Dobbins' Electric Soap" made by L. L. Cragin & Co., Philadelphia, Pennsylvania, and pronounce it the best soap I have ever used. The rapidity and ease with which it cleanses the skin is to be daily used, and is really surprising. Boiling the clothes is entirely unnecessary, and no rubbing is needed. I would not be without it.

NELLIE KENNEDY.

I have no hesitation in saying that no housekeeper should be without Dobbins' Electric Soap. I can heartily recommend it, it is a charm in the wash tub.

ELIZA P. LELAND.

As a time, labor and money saving article, I take pleasure in recommending Dobbins' Electric Soap to my neighbors. It promises wonders and does all it promises.

MARY YOUNG.

I take pleasure in calling attention to the testimonials, as we have just made arrangements with the manufacturers in Philadelphia, so that we can supply the trade at their lowest Philadelphia price.

GEORGE W. HAWES, Sole Agent.
